

# Suncitron

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Crop

Tomato

## Market Segment

Coloured Cherry

## Hybrid

Yes

## Disease Resistance

Intermediate Resistance: ToMV:0-2

## Features

- Light yellow Cherry with citrus flavour
- 15-20 gram fruit weight
- Good firmness and uniformity
- Excellent setting ability

## Description

SUNCITRON is a rounded, light yellow speciality cherry with citrus flavour (Brix avg. 8%) and is another great addition from SPS, suitable for medley mixed punnets. The attractive firm fruit average 15-20 grams and each truss will produce 10-12 fruit. SUNCITRON is a strong plant with excellent setting ability, very good uniformity and intermediate resistance to Tomato Mosaic Virus (ToMV).

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
