

Supabunch

Crop

Carrot

Market Segment

Bunching

Features

- Suitable for bunching
- Very smooth, dark orange roots
- Average root length is 15-17cm
- Medium vigour
- Fine attachment

Description

SUPABUNCH is an excellent quality carrot which is highly recommended for bunching carrot growers. Extremely smooth, dark orange roots taper to a stumped end with the average root length being 15-17cm. The dark green tops have medium vigour and a fine attachment.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
