SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Capsicum

Market Segment

Sweet Red Bullhorn

Hybrid

Yes

Disease Resistance

Intermediate Resistance: TSWV, PMMoV:1-2

Features

- TSWV red bullhorn type
- Fast to colour
- Sweet thick flesh
- High yield potential

Description

TORO is a large green turning red bullhorn type with intermediate resistance to TSWV. The tall upright plant offers good vigour and cover with regular setting and a very high yield potential. The fruit are good quality with straight sides and are early to colour with a medium wall thickness and sweet flavour. Fruit size is approx. 20-25x6cm on average.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
