

Turino

Crop

Lettuce

Market Segment

Iceberg

Hybrid

No

Disease Resistance

High Resistance: Bl:16,21,23,32

Features

- Round, dense heads
- Dark green
- Large heads and frame
- Mid maturing
- Excellent uniformity
- Cool season harvest

Description

TURINO is a mid-maturing Iceberg with large dense heads and a large frame. It has excellent uniformity, displaying nice round, dark green heads and good tipburn tolerance. TURINO has a medium blistered leaf and is suited for winter production in Qld and early winter in WA, with some resistance to Downy Mildew (Bl).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
