No

Disease Resistance

High Resistance: Bl: 16-29,31-33,35

Features

- Vibrant green Coral
- Fine leaf attachment
- Very good uniformity and volume

Description

WHITFIELD is a vibrant green Coral babyleaf variety for year-round production. It has a nice fine leaf attachment and great leaf incision with spikey tips. WHITFIELD is vigorous and high-yielding with very good uniformity of leaf and good volume for salad bags. It has shown good tolerance to tipburn in plantings to date and has Downy Mildew (Bl) resistance.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
