

# Windsor

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Crop

Rocket

## Market Segment

Babyleaf - Wild Rocket

## Hybrid

No

## Features

- Vigorous Wild rocket
- Cool season variety
- Mid-green, serrated leaf
- Good leaf thickness and shelf life
- High yield and good uniformity

## Description

WINDSOR is a vigorous, fast growing Wild rocket for cool season harvest. It produces a high yield of mid-green, very serrated leaves with a good shelf life. The yield and speed of WINDSOR is similar to that of a Speedy rocket variety and also offers good uniformity of leaf shape.

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
