

Onyx

Crop

Kale

Market Segment

Babyleaf and Bunching

Hybrid

No

Features

- Dark green Cavolo Nero type
- Improved colour
- Oval-shaped savoyed leaf
- Erect growth habit
- Mild brassica/mustard flavour
- Suited for babyleaf and bunching

Description

Producing attractive very dark green leaves with a definite savoy, ONYX is a true Cavolo Nero or Black Cabbage type with improved colour, suited to year-round production for babyleaf or bunching. With a mild brassica/mustard flavour, ONYX provides another element to salad mixes in regards to leaf colour, shape and texture and has good volume to assist in filling out bags.

Cultural Notes: Best result obtained from high population sowings, particularly for machine harvested crops.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
