Crop

Kale

Market Segment

Babyleaf

Hybrid

No

Features

- Tall, upright babyleaf kale
- Also suitable for microveg
- Red stem and veins
- Frilly serrated, tender green leaf
- Year-round production

Description

RED RUSSIAN is a tall, uniform, upright babyleaf kale with a frilly, serrated, green leaf and red stem and veins. RED RUSSIAN leaves are tender with a mild taste, are of a medium thickness and give good bulk to salad mixes. Suitable for both babyleaf and microveg all-year round, it is 25 days to babyleaf and 50 days to maturity.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
