Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. **VALID FOR 12 MONTHS FROM JANUARY 2020.** ACN 002 887 256

Adventure

ADVENTURE is a versatile variety in the Discovery segment with a 14-16 week maturity. The strong upright frame produces well covered smooth white curds. ADVENTURE is recommended for planting alongside Discovery or Escale for Qld and WA production areas.

Boris

BORIS is a versatile and self-covering cauliflower with 11-12 weeks maturity for spring, mild summer and autumn harvest. BORIS has a medium to large frame offering good curd cover, with dome-shaped heads and excellent curd colour and quality.

Denlis

DENLIS is a cool season variety in the Adventure/Brittany time slot with a 14-16 week maturity. DENLIS produces smooth, white, well wrapped curds on a strong upright plant. The tall frame sits well off the ground, and offers excellent curd cover.

Shakaris (IR: Xcc)

SHAKARIS is an early maturing (80-85 days) autumn variety with a medium to large frame and heavy, smooth white curds. The domed heads are well covered and very uniform in maturity. SHAKARIS has shown very good tolerance to disease in plantings to date and has intermediate resistance to Black Rot (Xcc).
