

BOOST

High Resistance: BI:16-27,29,32 **Intermediate Resistance:** LMV:1

BOOST is a very large, slow maturing Vanguard style Iceberg suitable for cooler weather harvest. BOOST has a large frame enabling some frost tolerance. A dark green outer leaf gives BOOST a fresh appearance. It has resistance to Downy Mildew (BI) and Lettuce Mosaic Virus (LMV).

ICEMAKER

High Resistance: BI:16-33, Nr:0

ICEMAKER is a large, sure heading, mid to dark green Iceberg lettuce with a low internal core, which has shown good tolerance to tipburn in plantings to date. ICEMAKER has a good frame, round uniform heads and is suitable for cool weather production in southern states, for the fresh cut market. It has resistance to Downy Mildew (BI) and Nasonovia Aphid (Nr).

RONODINLA

High Resistance: BI:16-33

RONODINLA is a larger Roundhouse type with uniform, round, heavy heads and sure head formation. RONODINLA is slightly larger than Roundhouse but smaller than Icehouse 2 and is suggested for spring/autumn production in southern areas, and winter in milder Qld areas. The variety has a large frame with upright habit and attractive dark green colour. It has resistance to Downy Mildew (BI).

TITANIC

High Resistance: BI:1-16,21,23,32 **Intermediate Resistance:** LMV:1

TITANIC is a large-framed, glossy, dark green lettuce with good size and an attractive dark colour in cooler periods. TITANIC cuts with a flat clean butt and has good layers of frame to offer some protection from frosts. Suitable for winter harvest in Western Australia and Queensland. Has resistance to Downy Mildew (BI) and Lettuce Mosaic Virus (LMV).
