

ALUCIA

ALUCIA is suitable for summer harvest, featuring heavy and firm dome-shaped heads, excellent tolerance to hollow stem and a nice dark, blue-green colour. ALUCIA has good holding ability, is early to mature and the uniform heads weigh approx. 380-400 grams, with medium-sized, tight beads.

AURORA

AURORA is an improved Atomic type with early maturity (approx. 60 days from transplant) and is suited for autumn to early winter harvest. AURORA has a dome-shaped head and strong tolerance to hollow stem with excellent head weight, fine bead size and dark green colour. AURORA has shown less susceptibility to White Rust (Ac) in plantings to date.

BRUMBY

BRUMBY is a versatile, mid maturing warm weather type which is very uniform and has good weight, with a fine bead and high quality domed heads. BRUMBY is suitable for summer and autumn harvest and has exceptional colour under warm conditions.

FUSION

FUSION is a compact, medium, dome-shaped broccoli with excellent uniformity, a fine bead and good weight of approx. 320g. It is an attractive dark blue-green colour with mid elevated heads and little or no side shoots for easy harvesting. FUSION is a firm holding, mid to late maturing variety and has shown very good tolerance to Hollow Stem and White Rust in plantings to date.

OVERLAND

OVERLAND is a firm holding, cool season variety with good head weight and a blue-green colour bead. It is a later maturing Aurora type with better cold tolerance at maturity, low set dome-shaped heads and medium bead. OVERLAND shows good uniformity at maturity, is non-purpling and has good tolerance to hollow stem. There may be some blindness issues in certain cool-cold locations from a late winter/spring transplant.
