KARATE

KARATE is an early, upright, non-flowering choy sum with glossy mid green leaves and pale green stems. High yielding and very hardy, KARATE is suited for the bunching market and grows well under cool conditions.

TABOO

TABOO is a light green-stemmed, non-flowering, upright choy sum. The leaves are an attractive glossy, dark green colour and round in shape with a lightly toothed margin. TABOO is very uniform, making it ideal for large bunches and grows well during the cool seasons.

MINTO

MINTO is a green-stemmed Shanghai type pak choy with a slightly cupped, pale green, broad, round leaf. MINTO is an early maturing variety and has excellent uniformity with a semi-erect growth habit.

SUMO

SUMO is the industry standard, Shanghai type hybrid, green-stemmed pak choy. SUMO is of excellent quality and has a glossy, dark green, oval-shaped, smooth leaf. It is a very slow bolting, uniform variety and is suitable for bunching all-year round. SUMO can be used in field production or hydroponics.

JOI CHOI

JOI CHOI is a hybrid white-stemmed bok choy with an attractive dark green, broad leaf and erect growth habit. JOI CHOI is very uniform and slow bolting in comparison to other bok choy varieties. It is suitable for production all-year round in mild climates.
