KAMERON (Drumhead)	Intermediate Resistance: Xcc, Foc KAMERON is a proven performer throughout Australia, offering a highly uniform product with a good large frame and excellent holding for main season production. It produces a large, flat, globe-shaped head at maturity and has low levels of off-types, which helps to ensure maximum field cut. KAMERON is approx. 100-120 days to maturity from transplant and has resistance to Black Rot (Xcc) and Fusarium Yellows (Foc).
ASIA (Drumhead)	ASIA is a medium size cabbage (2-3 kg class) with an attractive green colour and sweet flavour. ASIA offers a very uniform head size with a good outer frame and flat globe shape. The low core enables the variety to be used in bolting periods with some success. ASIA is suitable for processing or fresh market use. Approx. 120 days from transplant in winter.
SAVOY HOTEL (Savoy)	Intermediate Resistance: Xcc, Foc SAVOY HOTEL is a semi-globe, slow bolting Savoy cabbage with vigorous growth and an upright outer leaf for winter/shoulder harvest. It is a mid-maturing variety which is very uniform and has a dark blue-green frame and head colour, with a yellow internal and a heavily blistered leaf. SAVOY HOTEL has resistance to Black Rot (Xcc) and Fusarium Yellows (Foc).
RED JEWEL (Red Drumhead)	Intermediate Resistance: Xcc RED JEWEL is a medium size globe-shaped, red cabbage with an upright habit and dense heads. RED JEWEL has excellent uniformity, an attractive dark red colour and nice flavour. It has resistance to Black Rot (Xcc).
PORTELLO (Red Drumhead)	PORTELLO is an attractive red cabbage with uniform, globe-shaped, heads and a large frame. It has shown very good holding ability in the field and uniformity of maturity with a nice internal red colour. PORTELLO produces large-sized dense heads and has shown very good results in both warm and cool seasons in all states, in plantings to date. It is not recommended for the spring bolting period. PORTELLO has excellent tipburn and disease tolerance and will suit fresh market production.
210-22 (Red Drumhead) (Trial)	Compact plant with attractive red color and widely adapted. Very high quality compact red cabbage, round head, very solid interior with short core, excellent for long range transport. Still under assessment.
