CLARENCE

CLARENCE is a dark green Wild rocket for warm season production, with a tall and upright growth habit of fine leaves with great serration. CLARENCE has a good peppery/spicy flavour and makes a great addition to mixed salad bags with its appearance, texture and flavour.

WARRIOR

WARRIOR is a high yielding, vigorous Wild rocket. The mid green leaf is highly serrated with very good uniformity of leaf shape, and offers good shelf life. WARRIOR is a fast growing variety suited to year-round production.

VITESSA

VITESSA is a very vigorous, dark green Wild rocket with good bolting tolerance and very good uniformity. It has a thick, serrated leaf with good shelf life, and a lighter green to white stem which is interesting in contrast to the leaf colour. VITESSA has an upright growth habit and produces a high yield and good colour for warm season harvest but can also be used in year-round production.

BULWINKLE

BULWINKLE is a Speedy rocket type with a finely serrated leaf and excellent vigour for winter production. BULWINKLE is light green in colour with a white stem, medium leaf thickness and a mild rocket taste. It has an erect growth habit and shows very good uniformity.
