

# Granite

## Crop

Tomato

## Market Segment

Rootstock (for both field and covered cropping tomato varieties).

## Hybrid

Yes

## Disease Resistance

High Resistance: Fol:1-3 (U.S), For, ToMV:0-2, Va:1

Intermediate Resistance: Cmm, N(Mi), Pl, Rs

## Features

- Vigorous root system
- Excellent disease resistance package
- Maintains good balance to the scion

## Description

A great workhorse tomato rootstock with resistance to Fusarium Wilt, Corky Root and Bacterial Canker. Allows a crop to be produced in regions that would otherwise be difficult to grow due to these soil-borne diseases. GRANITE produces a vigorous root system, whilst maintaining a good balance to the scion, ensuring adequate fruit size towards the top of the plant.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. AUGUST 2023. ACN 002 887 256
